

**An Index to
Births, Marriages, and Deaths found in
select Buffalo & Erie County Publications**

Grosvenor Room Librarians identified several historic publications that happen to include information about an Erie County resident's birth, marriage, or death. These early sources are often overlooked, or may be difficult to search.

This index, created by staff, helps to supplement the official information found in the New York State Vital Index and other more comprehensive lists of births, marriages, and deaths.

Years covered: 1870s-1950

In this guide:

- I. Sources indexed
- II. Abbreviations used in the index
